## INSTRUCTIONS FOR TEST SCORING

- Use a regular answer sheet for your key. On the answer sheet under NAME, enter KEY\_INSTRUCTOR'S USER NAME using a #2 pencil. Example: KEY\_SMITHJ
- Fill in answer sheet with the correct responses. When changing an answer, please make sure to thoroughly erase the old answer .
- To omit a question, leave all bubbles blank for that question .
- You may submit more than one possible answer for a question.
  Example: To submit both A and B as correct answers, fill in the appropriate bubbles for each.
- Make a note in the special instructions if "must have" multiple answers are required for the question to be considered correct.
- To give credit for any response , fill in all of the bubbles for that question.
- On the answer sheets, students should fill in Name: LAST\_FIRST with the corresponding circles filled in for each letter. Check to make sure students bubble in their name ; otherwise, the reports will have no name listed for that student. Leaving the space between names will make it easier to read the reports.
- Answers crossed out on student answer sheets are counted as incorrect. Although the answer sheet indicates black or blue pen is acceptable, have your students use a #2 pencil to allow for erasure.
- DO NOT USE Liquid white -out
- When submitting tests, keep answer sheets neat and clean and all going in the same direction.
- Be sure to remove all blank sheets. Blank sheets affect the test statistics report.
- Use only one envelope when you have more than one test to submit unless it is a large class and/or print outs are requested.
