Please describe the results of your project and compare them to your original expectations. Elaborate on how well your objectives were met and how they might have changed. Note any particular obstacles that may have prevented your achieving full satisfaction on desired outcomes. Initially we hadplanned to host our workshops at Dante Hall and the Arts Garage but found that partnering with ACPAL would work better for us due to insurance and child care licensing and concerns. That partnership has worked out splendidly. The ACPAL staff and counselors help with moving, disciplining and feedinghe children so that our instructors and theissistants can focus on the arts The PAL can also move children from place to place by van, enabling students to travel to the Arts Garage for their art opening. (We will note that not only are we providing art training, but we are also educating children on audience and museum/gallestiguette.)
